

April meeting

From: brenda

Date: Friday, March 27, 2020, 05:00 PM CDT

Hello everyone,

I hope each of you, and your families, are staying safe.

As you know, the library will be closed all of next week and perhaps even after that, who knows. So, no LAB meeting can be scheduled here.

I have only one item for you to take a look at and that is the attached proposed FY 2020-2022 strategic plan document.

As you will see, both the Administrative and Public goals are exactly the same as before. These are wide ranging goals that, hopefully, cover all aspects of library service. How and when the goals are met is wholly dependent on having adequate facilities, funding, and staffing. We all understand that this is a rather ambitious plan and many of the goals listed will not be met any time soon. That is okay, at least we have a good plan with which to work from over time. You might also notice that I did remove a few objectives because they had been accomplished or were out of date, nothing new added. Goals are the same as before.

I think an online vote will be sufficient. If you all could read through the document by, say, next Wednesday, the 1st, and if someone would make a motion to accept it, get a second, and then every one vote, that's all I need. With no changes, I do not think it will need to go to Council. I think Board review is all that is needed. Joe Dickson's policy was if nothing has changed, it did not need to go to Council; I have shown this to new City Manager Glen Adams as a way of enlightening him regarding the goals we have in mind for the Library. (I've also attached the last STP for comparison.)

A last thought, about a new marquee - of course, the pandemic has influenced so many things. Hopefully, we can have the marquee up by the beginning of summer, fingers crossed.

Let me know if you have any questions, or need explanations.

Remember to 'reply all' in your messaging back and forth.

Thank you and hope to see you soon,
-Brenda

Hi everyone,

Thank you everyone!

It looks like there is a quorum of responses. I see the motion to accept made by Linda, and the second by Doris. All the 'accepts' are the actual 'yes' votes to accept the 2020-22 STP, right? I'd like to keep track of this email for verification, in lieu of a meeting, and will post April 1, 2020 as the Board's 'passed and approved' date.

Any suggestions as to a particular goal, or goals, to work towards in the near future? Which goals you would like to see accomplished in the near future, etc.?

I hope everyone is doing well during this time, I'm sorry we could not meet in person. The staff are all still working, even though the library is closed...answering phone questions, doing collection inventory (we Never get to do that all at one time, usually takes literally two to three years to do the entire collection - in other words, it is an ongoing project, but now we have the entire building to ourselves.) The collections should be in tip top shape when the library reopens. Doing deep cleaning, moving furniture around, doing digital storytimes and crafts, working on a YouTube channel for Journal Club, catching up on webinars, planning both an in-house Summer Reading Program but, also versions of a digital Summer Reading Program, or some version of both in-house and digital and, making plans to help users cope with an almost certain economic recession at the end of all of this, etc., etc., etc.

I hope to see you all soon, healthy and safe :)

-Brenda
