We are Girl Scout Troop# 138117. Our names are Gracie Pritchett, Jessica Reynolds, and Kaylyn Herrera and we Cadettes in the 7<sup>th</sup> and 8<sup>th</sup> grades.

We want to encourage more kids to get outdoors to be creative, play, and exercise. We also want to help make our park a special place just like our town.

Our troop has already built and donated two game picnic tables for our Bronze Award project to Joe A. Tambrella park and would like to give back more by completing our Silver Award project their too.

Our idea is to build a permanent outdoor structure called a music wall that will let children make music in the park. We would use concrete to secure wood posts into the ground and then use wood boards to form a wall about 5 to 6 feet tall and 10 feet wide. The music instruments would be attached and would consist of pots, pans, bells, wind chimes, and more. We plan to use a coated wire cord to attach metal, plastic, and wood spoons to make music. We would like to use rainbow colors to make the wall more attractive and fun for children. We would like to build the music wall in between the trees between the playground and the pavilion or anywhere else allowed.

Our time-line to finish will be May 2021 and we want to construct in April. We believe we can prepare most materials at our homes. We should be able to construct the wall in 2 days, a week apart. One day to dig holes and concrete poles and a second day a week later to construct wall and add music items.

We have several parents who are skilled at building to help us and plan to fundraise and ask for donations from stores for our project.
